PROFESSIONAL EXPERIENCE

- **Data Migration and Automation**
  - Successfully migrated 10,000 SKU items to 1C format, ensuring seamless import into the warehouse system without any validation errors.
  - Automated invoice splitting macro, reducing manual processing time from 3 hours per week to just 2 minutes with a single button click.

- **Business Intelligence and Reporting**
  - Designed and developed a Monthly Sales Dashboard with 4 interactive charts, enabling weekly meetings to be more efficient and data-driven.

- **System Optimization and Maintenance**
  - Optimized pricing model calculations, allowing the pricing sheet to update automatically without errors when new products are added.
  - Cleaned up the customer email list, removing 300 duplicate entries and preparing the dataset for import into Mailchimp.

- **Technical Verification and Deployment**
  - Conducted a thorough check of the webhook, ensuring timely completion and deployment. Utilized Docker for the task.
